Crosshead Basin Mono Mixer in Polished Nickel

London 1916 by Arte Form is a stunning new collection of bathroom brassware which can adapt to either a classic or contemporary bathroom design, enhancing the feeling of luxury with its subtle design ethos.

Lever Classic Floorstanding Bath Shower Mixer in Chrome

The London 1916 range takes its inspiration from the Edwardian period of English design that bridged the gap between the grandeur of Victorian times to the more pared back designs of the Art Deco movement.

The ceramic indices and levers feature a subtle cream crackle glaze that adds to the authentic feel of the design – each piece is lovingly hand finished in Staffordshire, an area of the UK renowned for its generations of skilled ceramics craftsmen.

Satin Brass

Polished Nickel

London 1916 is available in three distinctive finishes:

Satin Brass has the subtle sheen of brushed brass, but will not age or patina over time.

Polished Nickel has a warm golden hue that will gently patina over time.

Chrome is the traditional finish for bathroom fittings and is both stylish and hard wearing.

Chrome

London 1916 combines the external aesthetic and hand finished craftsmanship of the Edwardian age with the latest technological improvements, such as the EasyBox system – a revolutionary installation system that allows for simple, worry free fitting of built in parts within the wall.

Traditional materials such as brass and ceramic combine with the latest innovations in production. Computerised design and machining working alongside experienced craftsmen completing the final polishing stages by hand. All of the London 1916 range is manufactured in Lead Free Brass, which is just one part of our mission to develop products that are efficient, design led and have sustainable production at their core.

Available in *Chrome*, *Polished Nickel* or *Satin Brass*, each of the three finishes offer a distinct personality, enhancing the luxury of your environment with pieces that will stand the test of time.

At the heart of the London range are components sourced from internationally renowned producers such as Vernet thermostatic cartridges, Fluhs ceramic disc flow controls and Neoperl aerators.

The confidence that come from using such proven and reliable components allows Arte Form to offer a 15 year guarantee* against any manufacturing defects.

7. GUARANTEE AND LIABILITY

Arte Form products have a 15-year guarantee.

A 1-year guarantee on hoses and O rings.

Our products are guaranteed against manufacturing defects from the date of purchase until

the expiry of the relevant guarantee period shown above.

The guarantee is only valid if:

- (a) The product is installed, used and maintained in accordance with the instructions and subjected to normal use.
- (b) The defect is not due to use of an unsuitable or inadequate water or power supply.
- (c) The defect is not due to accident, misuse, neglect or incorrect/inappropriate repair or damage caused by foreign objects or substances.

Under the guarantee period Arte Form will, at its option, offer to supply any replacement product (or component part) assessed to be defective. The guarantee is non-transferable to any subsequent owner.

All electrical components require installation by a qualified electrician and in the case of any claim certification will be required from the installer.

All claims under the guarantee should be notified in the first instance to our After-sales department. All claims must be accompanied by proof of purchase (sales receipt) from an official Arte Form dealer. The guarantee does not extend to any consequential loss or damage.

Save as provided herein and save in any case where death or personal injury has been caused by the Company's negligence or any case where the Company is liable for a defect in the goods pursuant to Part 1 of the Consumer Protection Act 1987 or any statutory replacement thereof, the Company shall be under no liability whatsoever to the purchaser for any loss or damage whether direct, indirect or consequential arising out of any defect in, failure of or unsuitability for any purpose of the goods or any part thereof whether the same be due to any act, omission, breach of contract, negligence or wilful default in design, workmanship or materials or any other cause.

After repair or replacement, the relevant guarantee period will be calculated from the original date of purchase.

Arte Form operates a policy of continuous product development and therefore reserves the right to change the product, packaging and documentation specifications without notice.

Aftercare and Cleaning

We recommend cleaning the product surface every day by wiping it using a soft cloth and water (whether it be in a chrome, stainless steel or painted finish). Take care to dry immediately any drops or water build-ups since they may lead to the formation of limescale deposits that could be difficult to remove at a later time.

Never use detergents, abrasives, solvents, chemicals, products containing muriatic acid, ammonia, acetone, bleach, household acids, various disinfectants, rough and/or metal scouring pads and/or sponges that may cause permanent damage to the product surface. (please refer to our website for further detail.)

Cartridges and Thermostats

Care should be taken, particularly in hard water areas, to ensure that both cartridges and thermostats are regularly cleaned.

Failure to service these components can cause them to scale up and operate ineffectively and can invalidate the guarantee.

This guarantee is in addition to and does not affect your statutory rights as a consumer.

8. RETENTION OF TITLE

12. RETURNS PROCEDURE

Note to retailers: We do not operate a sale or return policy. However, in the event that you need to return products to us for any reason the following procedure should help to ensure that we handle your request efficiently.

Please note goods which are no longer required and that have been held by you for longer than three months from date of invoice cannot be considered for return and credit. A Collection Note should be emailed to our Collections Department:

- e-mail: collections@arteform.co.uk

We require the following details in order to process the necessary paperwork: Item stock code, finish and quantity of item(s) to be returned, the relevant Invoice Number or Delivery Note Number and the reason for return of the item(s). Our Collections Department will process the paperwork and after the collection request has been authorised, we will aim to collect the item(s) within 5 working days. You will also receive a Returned Goods Authorisation Note. The details of this note need to be checked and signed by you. If you have any queries whatsoever regarding the collection, please telephone our Collections Department.

All goods are to be suitably packaged before return to Arte Form Ltd, i.e. presentation boxes packed inside an outer box. Goods received back in anything other than re-saleable condition, may result in a request for credit being refused.

With the exception of faulty or damaged goods, all goods being returned will be subject to a 25% re-stocking charge with a minimum £15 charge being applicable. If items are received damaged or faulty no charge is made for returning the goods to us. Please note: shortages and damages must be notified within 2 days of receipt of goods.

Notification outside of the 2-day period will void any claim. If, after our inspection, a product is found to be defective due to a manufacturing fault we will issue a credit or a free of charge replacement.

Our collections department will liaise with your designated contact, confirming the total number of boxes packed ready for collection and a mutually convenient collection date will be arranged.
